Edip Yuksel vs. Ali Sina Round 11 Part 40

Edip Yuksel vs. Ali Sina

Round XI - page 40

Back < > Next

Mr. Edip Yukesl has completely stopped debating the Quran. The rest of what he has written has nothing to do with the Quran.

In the round (if it can be called that way) He explains why at first he accused the person who tried to make public what he thought to be my private information and when he realized this person was his own friend, he changed position, defended him and even apologized to that person.

Then he copy pasted the comments of the disgruntled Muslims who were defeated in the debates in the fourm of the site and went to Alexa.com to post their venomous comments about Faith Freedom International and myself. The vituperations of my enemies about me have nothing to do with our discussion of the Quran. Usually we send this kind of discussion to a special forum we call "garbage can".

At the end he writes a “The SURPRISE NOTE and THE GREAT PROPHECY”. It is not clear what is this "prophecy" but according to the new risen prophet something is going to happen to me on February 19. I hope this is not an assassination. I suspect it is not because this “prediction” can be used against him to establish his culpability. But if this “prophecy” has nothing to with what he or his cronies are planning to do to me, I don’t think I should be very concerned. A man who has missed the basics of the truth, certainly has no “prophetic” powers to predict anything. If he was endowed with any insight, he would have realized that Islam is a false and would not have clung to that book of ignorance.

The following is a message I received from a writer and his impression of this debate.

As for Edip, he will never leave Islam unless his followers come to see how he was defeated and leave him. Only then, he will be able to see the truth. As long as he enjoys the respect and adulation of other submitters, he will keep seeing himself as the Martin Luther of Islam, without actually reforming anything. Martin Luther, actually did reform the Christianity. What Edip is going to reform is not clear not even to himself. Nonetheless the title of "Reformer" sound too attractive.

Dear Ali

I wrote to you once earlier. After much deliberation, I expose myself for the first time to you. My life is in your hands from now onwards, not that I am scared of this life lost. It is just that

I feel I could help many more. And maybe I love my kids too.

Knowing the truth all along, I have been trying to beat them at their game by quoting from their Book. But the ones who have their heads buried in the sand only dig deeper. I have been following 'faithfreedom' very closely whenever I get a chance. Unfortunately it is blocked in the country that I am residing in.

Now, a matter of great urgency.

I am following your discussion with the founder of 19ers very closely. He, in my opinion, is all but beaten. I have a similar 19er rolling on the mat. I went through the same stages myself. I request you to forward your scientific i.e. 19est refutation of the Quran asap as that would greatly enhance the armament that I already have. It cannot wait for the 19ers boss to respond and you to refute. I already am using your write-ups, albeit without your permission. I hope you would forgive that for the cause.

I have more to request, and discuss, but that can wait. You can write to me in the meanwhile for any queries/guidance.
